Prepared by: Brooke Helmick, Director of Policy

<u>Questions for the MACH2 Community Engagement Team:</u>

Regarding the Stop/Go Process:

1. Can you please clarify the decision making structure of the stop/go process?

    a. What can you share with us about the implementation and scope of this process?

2. What happens to a project that is stopped/not granted the right to go forward? Is the project canceled or is the project expected to continue under certain conditions/qualifications to be met?

    a. When and where will the stop/go points occur?

3. Will communities have the right to refuse the projects?

Outreach:

4. What does the MACH2 outreach process consist of?

    a. What is the overall purpose and timeline for this process?

    b. Does this process count towards the DOE Phase I project milestones?

        i. Does the DOE receive reports on these outreach meetings?

5. Who is organizing the outreach process? What entities are being represented and who will receive final reports regarding the outreach process?

6. Who else have you reached out about community outreach, both in the state of NJ and in PA and DE? Have you met with them yet and who else do you plan to reach out to in the region, and more specifically in the state of NJ?

    a. In addition to partners listed on the website, are there any other labor unions and organizations that you have consulted with?

7. Will there be a public meeting in New Jersey on the hubs? Will you be reaching out to individual groups about the hubs? When will outreach begin?

    a. Will this meeting(s) be in-person or virtual?

    b. Will they be recorded/documented and reported on? If so, to whom?

Development and Logistics:

8. When will work on the hubs begin if they go forward?

9. Which governmental entities are involved in developing the hubs?

    a. Who is the point of contact at the DOE (and any other involved federal agencies) for the MACH2 project specifically?

    b. Are there any non-profit partners?

10. Who is the project coordinator?

    a. Who can answer substantive questions that we have concerning the hubs? Are the stop/go points the only time community members and organizations can interact with project coordinators? Will there be other points of interaction?

11. Does the MACH2 project have a physical office? If so, where is it?

12. Can we receive a copy of the proposals sent for the hub as well as any documentation related to this proposal?

13. What questions do you have for us?
